Abstract
Many people get a dog that does not fit their lifestyle. Having a quiz to help decide on which dog based on lifestyle can support a healthy dog choice selection.

Project Description
What
K9 Solutions recommends which kind of dog is right for you based on a personality quiz.

Why
People pick a dog when they are just window shopping and become a victim of "Puppy Love".

Who
People who are interested in finding the right dog that will fit into their life.

Process
Structured Analysis for concept to logical design; Agile iterative method for build to deployment

Features
• Anyone can take the quiz.
• Provide best breeds by categories.
• Able to compare results to others.

Lessons Learned
• Interesting the different type of dogs based on lifestyles.
• Shelters, rescues, and fosters are at full capacity and need help.
• Website building, database management, and project management all work together.

Technologies
• MariaDB, Ubuntu, NFS, MySQL, HTML, JIRA SCRUM
• Raspberry Pi 3 model B
• ProProfs for quiz and data analysis

Future Work
• Add more dog breed options.
• Provide service to Rescue organizations.
